

REACH / RoHS Regulations / POPs / PFAS / TSCA

30 January 2024

REACH / RoHS REGULATIONS / POPs / PFAS / TSCA

The above-named products are non-electronic temperature indicators. Composition varies according to range and type. They are printed laminates composed of self-adhesive films (with modified acrylic adhesives) polyester film or polyimide film (according to type), paper and various organic crystalline waxes.

As part of our on-going commitment in ensuring that we comply with all legislative requirement, we have implemented the full requirements listed under the REACH Directive.

The products comply with REACH Annex XIV (Authorisation List)

The products comply with REACH Annex XVII (Restricted List)

The chemicals present are non-hazardous and comply with RoHS 3 (EU2015/863), WEE and Reach directives.

No CMR, Mutagenic or toxic to reproduction chemicals and endocrine disruptors as restricted under EU MDR Restricted materials Scope are present.

In terms of the complete SVHC list, as updated January 23rd 2024, we are happy to confirm that all the named products supplied by TMC do not contain any chemicals as listed on SVHC.

The SVHC list can be obtained at the following:

<https://echa.europa.eu/candidate-list-table>

The products do not contain any chemicals on the POPS list as updated January 2023. The list can be obtained here:

[List of substances subject to POPs Regulation- ECHA \(europa.eu\)](#)

These labels do not contain any chemicals on the California Proposition 65 list. They are compliant with TSCA regulations.

PFAS- we do not use or intentionally add any per- and polyfluoroalkyl substances (PFASs).

We trust that the above meets with your requirements and should you require any further clarification then please do not hesitate to contact us.

Thanking you in advance – Yours sincerely,

pp Chris Chapman, Laboratory Manager
